Scope of Practice and Client Rights Disclosure

What Moore Pathways LLC provides

Moore Pathways LLC provides non-clinical support services for children, youth, and families: youth mentoring and family support, tutoring and skill-building, and privately arranged supervised parenting time. Sessions are practical and goal-oriented, built around relationship, structure, and skills.

What these services are not

These services are not therapy, counseling, or psychological treatment. Moore Pathways LLC does not diagnose any condition, conduct clinical assessments, prescribe or advise on medication, or make treatment recommendations. If your child works with a therapist, physician, or other licensed clinician, all clinical decisions remain with that treatment team. When helpful, and with your written permission, Moore Pathways LLC can coordinate with those providers.
